Bus Bay Traffic Trial

Having implemented the trial 'left in and left out' regime in the bus bay we have come to the conclusion it has been a success.

We have small queues of vehicles turning left into the bus bay with an easy exit being afforded by making a left hand turn back onto Aberdeen Road. The only downside we can detect from the trial has been the increased queues of vehicles turning out of Aberdeen Road onto East Coast Road.

A group of parents has suggested we amend the trial and allow vehicles to turn right and left out of the bus bay. As there are no queues forming to make a right hand turn into the bus bay, it should be fairly straightforward to make a right turn out of the bus bay. Hence, as a result of this suggestion, we will amend the trial so from now on it is as follows:

Left turn only into the bus bay and **left or right hand turn** out of the bus bay.

We will monitor this closely and see how it works. Always trying to improve!

Finally, thank you for your cooperation thus far. The great improvement in the flow of vehicles in the bus bay has been in part achieved because of the fulsome support of those using the bus bay.

From Monday 19 November:

Left in

and

Left or Right out
